25X1 1. [REDACTED] Called on George Autry, Chief Counsel, Senate Subcommittee on Constitutional Rights, to discuss Senator Sam J. Ervin's bill (formerly S. 3779). I inquired of Autry concerning anticipated timing on this bill. Autry said the Senator expects to introduce it on or about 8 February, following which it will probably lie on the table for a few weeks. During this period the Senator expects to solicit written views of the agencies concerned, which views will be considered in marking up the bill. I inquired if there is any chance of obtaining a draft of the bill before it is introduced. Autry said the Senator is not making it available to others but he would inquire to see if we could obtain a copy and will call me. Autry said the Senator is making approximately twelve substantive changes in the previous bill but that the general area of prohibition remains the same.
